

Happy Valentine's Day!
We love that you are our patients!

FEBRUARY IS NATIONAL PEDIATRIC HEALTH MONTH

"Brush your teeth with fluoride toothpaste and clean between your teeth for a healthy smile."

Dental hygiene is one of the most important things we can teach our children. Unfortunately, for a lot of parents, getting kids to brush and floss their teeth is like... well, like pulling teeth. But if we want to protect our kids from having their teeth actually removed due to neglect at some point in their lives, we've got to show them the ins and outs of proper dental health. Luckily, February is right around the corner, and that means it's National Children's Dental Health Month. A campaign of the American Dental Association and Crest Oral B provides parents the tools they need to teach their children about dental and oral health.

To celebrate National Pediatric Dental Health Month we are hosting a patient driven event to benefit our community.

Please consider participating by choosing the organization you would like to support. You may choose to donate food, or needed items, perhaps even to serve those in need.

For your efforts, you will be entered to win prizes. Ice skating passes, Suns tickets and a grand prize of 2 adult tickets and 2 child tickets to Universal Studios.

**Take a picture(s) donating or providing service and send to Jenifer@DrSeussOrtho.com
